

1. Apollo.io

Apollo is a massive B2B database and sales engagement platform. It's widely considered the gold standard for free value because it combines email finding with a built-in email sender.

- **Free Credits:** ~75 to 100 credits/month (Technically 900 credits/year, allocated monthly).
- **Accuracy Estimation:** 80% – 85% (Very vast database, but sometimes slightly outdated).
- **How to Use:**
 1. Sign up for a free Apollo.io account.
 2. Install the Apollo Chrome extension.
 3. Visit your prospect's LinkedIn profile.
 4. Click the Apollo icon on the right side of your screen to reveal and save the email.

2. Snov.io

Snov.io is a specialized cold outreach platform with an excellent built-in email verifier. It is highly trusted for keeping bounce rates low.

- **Free Credits:** 50 credits/month (Renewed every 30 days on the free trial plan).
- **Accuracy Estimation:** 95%+ (They run real-time 7-tier verification before giving you the email).
- **How to Use:**
 1. Create a free account at Snov.io.
 2. Download the "Snov.io Email Finder" Chrome extension.
 3. Navigate to a LinkedIn profile or run a LinkedIn search.
 4. Click the Snov.io extension icon in your browser toolbar and hit "**Save**" to reveal the verified email.

3. Skrapp.io

Skrapp is a lightweight, dedicated email extractor. It's incredibly fast and favored by users who just want to build simple Excel/CSV lists without bulky CRM features.

- **Free Credits:** 100 credits/month.
- **Accuracy Estimation:** 85% – 90%.
- **How to Use:**
 1. Register at Skrapp.io.
 2. Install the Skrapp Chrome extension.
 3. Go to any LinkedIn profile.
 4. Click the "**Find Email**" button that Skrapp injects directly onto the profile page.

4. GetProspect

GetProspect focuses heavily on list-building from LinkedIn searches. It has a very user-friendly interface and automatically validates emails in the background.

- **Free Credits:** 50 valid emails/month (It only charges you for emails it successfully verifies).
- **Accuracy Estimation:** 95%.
- **How to Use:**
 1. Sign up at GetProspect.com.
 2. Install their Chrome extension.
 3. Perform a search on LinkedIn (e.g., "Founders in New York").
 4. Click the GetProspect icon to either unlock a single profile or bulk-save an entire page of search results to a list.

5. Lusha

Lusha is one of the most famous tools for finding direct dials (phone numbers) alongside emails. It is widely used by enterprise sales reps but offers a solid free tier.

- **Free Credits:** 40 credits/month (Sometimes up to 70 depending on promotional signup periods).
- **Accuracy Estimation:** 85% – 90%.
- **How to Use:**
 1. Create a Lusha account (Requires a business email domain to sign up).
 2. Install the Lusha Chrome Extension.
 3. Open a target's LinkedIn profile.
 4. Click the floating Lusha icon to reveal contact details (emails cost 1 credit, phone numbers cost 5 credits).

6. Kaspr

Kaspr is a rising star, especially known for its high accuracy with European contacts and direct phone numbers.

- **Free Credits:** 15 B2B email credits + 5 phone credits/month.
- **Accuracy Estimation:** 90%+.
- **How to Use:**
 1. Sign up for a free Kaspr account.
 2. Add the Kaspr Chrome extension.
 3. Browse to a LinkedIn profile.
 4. A widget will appear; click "**Reveal Contact Details**" to get the email or phone number.

7. ContactOut

ContactOut claims to find personal and professional emails for over 75% of the Western world. It's heavily used by recruiters because of its high hit rate on personal Gmail/Yahoo addresses.

- **Free Credits:** 5 emails per day (Roughly 150/month if used daily).
- **Accuracy Estimation:** 95%+.
- **How to Use:**
 1. Register at ContactOut.com.
 2. Install the ContactOut extension.
 3. Go to a LinkedIn profile.
 4. A side panel will slide out showing partial contact data; click **"Show"** to use a credit and see the full address.

8. Wiza

Wiza was built specifically to scrape LinkedIn Sales Navigator, but it works on standard LinkedIn too. It's a favorite for users who want to export large lists quickly.

- **Free Credits:** 20 email credits + 5 phone credits/month.
- **Accuracy Estimation:** 95%+ (Live verification).
- **How to Use:**
 1. Sign up at Wiza.co.
 2. Install the Wiza Chrome extension.
 3. Open a LinkedIn profile or search page.
 4. Click the **"Find Email"** button or use Wiza's bulk export feature to scrape a whole page of search results directly to a spreadsheet.

9. FindThatLead

FindThatLead is a great all-in-one suite that includes an email finder, verifier, and sender. It's particularly good at guessing corporate emails based on domain patterns.

- **Free Credits:** 50 credits/month.
- **Accuracy Estimation:** 85% – 90%.
- **How to Use:**
 1. Create an account on FindThatLead.
 2. Add the Chrome extension.
 3. Visit a LinkedIn profile.
 4. Click the extension, and it will cross-reference the person's name and company domain to generate and verify their email.

10. RocketReach

RocketReach is one of the oldest and largest databases on the web. It searches across dozens of social links, not just LinkedIn, making it a great fallback when other tools fail.

- **Free Credits:** 5 Lookups/month (Very small, but high value for hard-to-find targets).
- **Accuracy Estimation:** 85% – 90%.
- **How to Use:**
 1. Register for a free RocketReach account.
 2. Install the Chrome extension.
 3. Go to a LinkedIn profile or any company website.
 4. Click the extension to see a list of potential personal and professional emails associated with that person.
