■ Why This Method Works

Most job seekers apply through portals like Naukri, LinkedIn, or company career pages and then wait for weeks — often hearing nothing back. This guide teaches you a smarter approach: reach out **directly** to the recruiter who is actively hiring for your target role. With Claude AI and the free Vibe Prospecting connector, you can get a recruiter's verified work email and phone number in under 10 seconds.

■ Old Way	■ New Way (This Guide)
Apply on portal & wait	Get recruiter's direct email & call
Hundreds of applicants in queue	You stand out with personalised outreach
No visibility on application	Direct conversation with decision maker
Average response: 3–6 weeks	Average response: 2–5 days

■■ Setup: Claude AI + Vibe Prospecting

Follow these one-time setup steps. Once done, you can find recruiter contacts for **any company, any role, any city** in seconds.

1 Go to Claude.ai

What to do: Open your browser and visit **claude.ai**. Sign up for a free account if you don't have one already. No credit card required.

2 Open Settings → Connectors

What to do: Click on your profile icon (top right) → **Settings** → then click '**Connectors**' or '**Integrations**' in the left sidebar.

3 Search for Vibe Prospecting

What to do: In the connectors marketplace, search for '**Vibe Prospecting**'. Click on it and then click '**Connect**'. It is completely free to install.

4 Authorise the connector

What to do: Follow the on-screen prompts to authorise Vibe Prospecting. This gives Claude access to a database of 500M+ professional profiles with verified emails and phone numbers.

5 You are ready!

What to do: Go back to the main Claude chat. You'll see a tools icon showing Vibe Prospecting is active. Now paste the prompt from Section 3 and get results instantly.

■ The Prompt Template

Copy the prompt below, fill in your details inside the [] brackets, and paste it into Claude. The more specific you are, the better results you'll get.

■ Email Do's & Don'ts

■ DO	■ DON'T
Keep email under 100 words	Write long paragraphs
Mention specific role (SDE 2, not 'any role')	Say 'I'm looking for any opportunity'
Include YOE and top 2-3 skills in subject line	Use a generic subject like 'Job Application'
Attach updated resume (PDF format)	Send resume in .doc or without resume at all

Personalise with recruiter's name	Start with 'Dear Sir/Ma'am'
Follow up once after 5-7 days	Send multiple follow-ups daily

■ Follow-Up Strategy

Most people give up after one email. The magic is in the follow-up. Here is the exact timeline to follow:

Day 1	Send initial cold email Send your personalised cold email with resume attached. Best time: Tuesday–Thursday, 9–11 AM or 2–4 PM.
Day 3	Connect on LinkedIn Send a LinkedIn connection request with a short note: 'Hi [Name], I sent you an email about SDE 2 roles at Amazon. Would love to connect!' — Do NOT send another email yet.
Day 7	Send one follow-up email Reply to your original email thread (do not send a new email). Keep it to 2 lines: 'Hi [Name], just following up on my email from [Day 1 date]. Happy to share more details if helpful. Thanks!'
Day 14	Final LinkedIn message Send a short LinkedIn message only if they accepted your connection. After this, move on — do not follow up further with this recruiter.
Ongoing	Target 5-10 recruiters per company Do not rely on one recruiter. Run this same process for 5–10 different recruiters at your target company simultaneously to maximise your chances of getting a response.

■ Pro Tips to Maximise Results

■ Optimise Your LinkedIn First

Before reaching out, make sure your LinkedIn headline includes your role and top skills. Recruiters WILL check your profile after receiving your email. Example headline: 'Backend Engineer | Java | Spring Boot | AWS | Open to SDE 2 roles'

■ Tailor Your Resume

Have a version of your resume that mirrors the keywords in the job description. Amazon, Google, and Microsoft use ATS (Applicant Tracking Systems) — your resume must include keywords like the exact technologies listed in the JD.

■ Target the Right Recruiter

From the list Claude gives you, prioritise: (1) Technical Recruiters, (2) Recruiting Business Partners, (3) Talent Acquisition Partners. Avoid sending to HR Managers or HR Directors — they don't manage day-to-day hiring.

■ Track Everything in a Spreadsheet

Maintain a simple Google Sheet with columns: Recruiter Name | Company | Email | Date Emailed | LinkedIn Connected | Follow-up Date | Status. This keeps you organised and ensures you never miss a follow-up.

■ Best Days & Times to Email

Tuesday, Wednesday, and Thursday between 9–11 AM are the highest open-rate windows. Avoid Mondays (busy) and Fridays (people are winding down for the weekend).

■ Referrals Beat Everything

If you know anyone at your target company — even a 2nd-degree LinkedIn connection — ask for a referral before cold emailing. A referral increases your interview chance from ~5% to ~30% at most FAANG companies.

■ Your Job Hunt Action Checklist

Use this checklist every time you target a new company.

Before You Start

- Update LinkedIn headline with role + top skills
- Prepare a tailored resume (PDF) matching the JD keywords
- Research the company — products, tech stack, recent news
- Identify 2-3 specific roles you want to target

Finding Recruiters

- Go to Claude.ai and verify Vibe Prospecting connector is active
- Fill in the prompt template with your specific details
- Get the list of 10 recruiters with emails & phone numbers
- Identify the top 3-5 most relevant technical recruiters

Outreach

- Personalise the cold email template with recruiter's name
- Write a specific subject line with YOE + role + key skill
- Attach your tailored resume (under 2 MB, PDF format)
- Send email Tuesday-Thursday, 9-11 AM for best open rates
- Send LinkedIn connection request 2 days after email

Follow-Up

- Day 7: Reply to original email thread with a short follow-up
- Day 14: Send a brief LinkedIn message (if connected)
- Track all activity in a Google Sheet
- Repeat for 5-10 recruiters per target company
