The AI Weekend Roadmap

27 Videos. 6 Phases. Zero to AI.

Everything on this list is free. No courses to buy. No sign-ups. Just YouTube.

Watch in order. Do not skip phases. This is the roadmap nobody gave you in college.

PHASE	TOPIC	VIDEOS	HOURS
01	What Even Is AI?	5	6-7 hrs
02	How to Actually Use ChatGPT	5	3-4 hrs
03	Prompting: The Skill That Multiplies Everything	4	2-3 hrs
04	The AI Tools Stack	5	3-4 hrs
05	Making Money With AI	6	3-4 hrs
06	Go Build Something	2	16-17 hrs

Total: approximately 33-39 hours of content.

Follow the phases in sequence. Each one builds on the last.

Phase 01 will feel slow. Do it anyway. It is the foundation everything else sits on.

Phase 06 is where it gets real.

PHASE 01

What Even Is AI?

Before you touch any tool, you need the mental model. Most people skip this and go straight to ChatGPT. Then they wonder why they keep getting bad outputs and do not understand what is actually happening. This phase fixes that. It is not technical. It is the mental model: what AI is, how it thinks, why it sometimes lies, and how to think about it the way people who actually build with it do.

Estimated time: 6-7 hours

VIDEO 01

You're Not Behind (Yet): How to Learn AI in 29 Minutes

Futurepedia | Jul 2025 | 29 min

Start here. Before the long videos, before the frameworks, this one gives you a map. It tells you what AI actually is right now, why everyone feels behind, and what the five things that actually matter are. Watch this first and everything after will land harder.

VIDEO 02

The Only AI Guide You'll Ever Need in 2026

YouTube | Jan 2026

A full orientation to where AI is right now. What tools exist, what matters, what is noise. If Video 01 is the map, this is the satellite view. Watch it before going deeper anywhere.

VIDEO 03

How ChatGPT Works | LLMs Explained in 8 Minutes

Alice Zhao | Jul 2025 | 8 min

The clearest 8-minute explanation of what is actually happening inside ChatGPT and every AI tool you will use. No code, no jargon. Just the real answer to: why does it make things up? Why does it get things wrong? How does it generate a response? This video answers all of it.

youtube.com/watch?v=dVQgcuh4uPU

VIDEO 04

Deep Dive into LLMs like ChatGPT

Andrej Karpathy (ex-OpenAI) | Feb 2025 | 3 hrs 31 min

This is the most important video on this list. Karpathy built the systems that power ChatGPT. This is him explaining, for a general audience with no technical background needed, how these models are trained, what hallucinations really are, and how to think about the psychology of an AI. 3.5 hours. Do not skip it.

youtube.com/watch?v=7xTGNNLPyMI

VIDEO 05

How I Use LLMs

Andrej Karpathy | Feb 2025 | 2 hrs 11 min

The practical follow-up to Video 04. Same creator, same clarity, but now it is about actual use. How Karpathy himself uses these tools in daily life: research, writing, thinking. If Video 04 is the engine manual, this is watching the engineer drive the car.

youtube.com/watch?v=EWvNQjAaOHw

PHASE 02

How to Actually Use ChatGPT

You have got the mental model. Now you need reps. These videos show you how to actually use ChatGPT, not in theory, but in your daily life. Study, work, decision-making, writing, learning faster. This is where AI stops being a concept and starts being a habit.

Estimated time: 3-4 hours

VIDEO 06

How to Use ChatGPT for Beginners: Step-by-Step Tutorial 2025

YouTube | Jan 2025

The basics done properly. Interface, how to start a conversation, what to ask, how to follow up. If you have never used ChatGPT before or feel like you have been using it wrong, start here.

youtube.com/watch?v=rjIC1COKZ94

VIDEO 07

How to Use ChatGPT in 2025 - Tutorial for Beginners

YouTube | Mar 2025

A step up from Video 06. Covers how to use ChatGPT not just to ask questions but to actually work with it: give it context, iterate on outputs, and use it as a thinking partner rather than a search engine.

youtube.com/watch?v=k3DLNmCQfq8

VIDEO 08

How to Use ChatGPT to Transform Your Life (Full Tutorial)

YouTube | Jun 2025

This one goes personal. Diet planning, learning systems, daily routines, decision frameworks. Shows you how to use ChatGPT as an actual life tool, not just for work tasks. Good for seeing how wide the application really is before you narrow down to your own use case.

youtube.com/watch?v=Umuf2c0sZbk

VIDEO 09

How I Use AI Daily (ChatGPT Prompts and Productivity Hacks)

YouTube | Mar 2025

Real daily workflows. The kind of video where you pause 15 times to try things yourself. Covers actual prompts for actual tasks, not hypothetical examples.

youtube.com/watch?v=xzs3u7NQdlQ

VIDEO 10

AI Agents, Clearly Explained

Jeff Su | Apr 2025

You will start hearing the word 'agents' everywhere. This is the clearest non-technical explanation of what an AI agent actually is and why it matters for how you use AI going forward. No coding required to understand this.

youtube.com/watch?v=FwOTs4UxQS4

PHASE 03

Prompting: The Skill That Multiplies Everything

The quality of your output is directly proportional to the quality of your input. This is the highest-leverage skill in the whole roadmap. Better prompts means better outputs from every tool you will ever use. These videos give you the frameworks, not just 'be specific' advice, but actual structured techniques that change how you communicate with AI entirely.

Estimated time: 2-3 hours

VIDEO 11

How To Prompt ChatGPT The RIGHT WAY In 2025

YouTube | Sep 2025

Most people are doing it wrong. This video breaks down the actual mistakes and shows you the correct approach with live examples. Watch this and you will immediately get better outputs from every AI tool you use.

youtube.com/watch?v=pv_sAnH_P8Q

VIDEO 12

AI Agents Fundamentals in 21 Minutes

The AI Advantage | Feb 2025 | 21 min

How to talk to AI the way it actually needs to be talked to. Covers chain-of-thought prompting, how to structure requests, and how to get the model to do real reasoning rather than surface-level responses. 21 minutes that will change how you prompt forever.

youtube.com/watch?v=qU3fmidNbJE

VIDEO 13

4 AI Prompt Patterns You NEED to Know

YouTube | Mar 2026

Four specific, repeatable patterns you can apply immediately. Not vague advice, actual templates. The kind of video you watch once and refer back to every week.

youtube.com/watch?v=mib1r_UuGEs

VIDEO 14

How to Use ChatGPT-5 for Daily Productivity

YouTube | May 2025

Covers the latest model and how its prompting works differently from earlier versions. Good for understanding how to get the most out of the current state of AI, not 2023 advice applied to 2025 tools.

youtube.com/watch?v=PzOKb5g1cnU

PHASE 04

The AI Tools Stack

ChatGPT is just the beginning. There are hundreds of AI tools. Most of them are noise. These videos cut through it and show you the ones that are actually worth your time: for writing, research, automation, content creation, and productivity. After this phase you will know exactly which tools to use for which jobs.

Estimated time: 3-4 hours

VIDEO 15

The AI Tools I Actually Use Every Day (2026)

Matt Wolfe | Feb 2026

Matt Wolfe runs FutureTools and has tested more AI tools than anyone. This video is his honest, current daily stack. No hype, just what he actually opens every day and why.

youtube.com/watch?v=SIRzTFx8Qtg

VIDEO 16

Top 10 Best FREE AI Tools You NEED to Know (2026)

YouTube | Apr 2026

A comprehensive roundup of the best free tools available right now. Good for mapping the landscape before you decide what to go deep on.

VIDEO 17

10 AI Tools You NEED to Know About in 2026

YouTube | Mar 2026

Covers newer tools that were not on anyone's radar 12 months ago. Especially good for tools in the image, voice, and video space that are now actually usable for non-technical people.

youtube.com/watch?v=54cJG-8BhWE

VIDEO 18

Top 10 New AI Tools You Need to Know Before 2026

YouTube | Aug 2025

A snapshot of what shifted in mid-2025. Useful as context for why the tools in the previous videos exist and what they replaced.

youtube.com/watch?v=Vyy7jIYtJPK

VIDEO 19

How I Use AI to Automate My Business and Work 10X Faster

YouTube | Dec 2025

This is the bridge between using AI tools individually and building a system. Shows real workflows where multiple tools are connected to get real work done faster. The first taste of what automation actually feels like in practice.

youtube.com/watch?v=jWhCg6sX_xl

PHASE 05

Making Money With AI

Everything you have learned so far is leverage. This phase shows you how to use it. These videos are honest about what it takes to actually earn with AI. Not passive income fantasy. Real models: services, automation, content, freelancing. Watch all five before deciding which path makes sense for you.

Estimated time: 3-4 hours

VIDEO 20

Every Way to Get Rich With AI in 2026 (Explained in 10 mins)

YouTube | Jan 2026 | 10 min

A map of every monetisation model that actually exists with AI right now. Watch this first in this phase to understand the landscape before going deep on any one path.

youtube.com/watch?v=mZecvMwmvGk

VIDEO 21

The Single Best Way to Make Money with AI in 2025

Nick Saraev | Nov 2025

Nick Saraev built a real business on AI automation. This is his honest take on what actually works, not what sounds good. Pay attention here. He is the same person behind the n8n course in Phase 06.

youtube.com/watch?v=AI5l8tPlgU0

VIDEO 22

Laziest Way to Make Money with AI (Starting From Zero)

Dan Martell | Jun 2025

Dan Martell built a \$100M+ business. This is him breaking down the lowest-barrier entry points for someone starting from zero. Not lazy in the passive income sense: lazy in the highest output for lowest unnecessary effort sense.

youtube.com/watch?v=uz_3dSU8rQo

VIDEO 23

How I'd Make Money with AI in 2026 (If I Had to Start Over)

Nate Herk | Oct 2025

Nate Herk is also behind the Claude Code course in Phase 06. This video is him being completely honest about what he would do differently if he had to start from scratch today. He is talking directly to where you are right now.

youtube.com/watch?v=Q46OLxFshAQ

VIDEO 24

Best AI Business Ideas in 2026 (No Coding, No Startup Cost)

YouTube | Aug 2025

Five specific business models. No coding required for any of them. No upfront cost. Good for someone who wants to start but does not know which direction to go. This video forces you to pick one and understand what it would actually take.

youtube.com/watch?v=z5rei89Ek9M

VIDEO 25

Make Money with AI in 2026: Step-by-Step Tutorial

YouTube | Nov 2025

A step-by-step walkthrough of one specific path from zero. Good for seeing what 'actually starting' looks like: not the idea, but the first five moves.

youtube.com/watch?v=vv1S2bpMFqA

PHASE 06

Go Build Something

This is where you stop watching and start doing. The two videos in this phase are not overviews. They are full courses, 6 hours and 10 hours respectively. You do not watch these casually. You open your laptop, follow along, and build the things being built on screen. By the time you finish both, you will have skills that people are paying real money for right now.

Estimated time: 16-17 hours

VIDEO 26

N8N Full Course - Build and Sell AI Automations + Agents

Nick Saraev | Apr 2025 | 6 hrs | 1M+ views

n8n is the most powerful free automation tool available right now. Nick takes you from literally creating an account to building real business workflows: calendar autoresponders, AI-powered cold email systems, journalist query bots, and more. Also covers self-hosting so you can run unlimited workflows for Rs. 400-800 per month. This video alone is worth more than most paid courses.

youtube.com/watch?v=2GZ2SNXWK-c

VIDEO 27

Build and Sell with Claude Code (10+ Hour Course)

Nate Herk | Mar 2026 | 10+ hrs

Claude Code lets you build full applications, deploy websites, create agent systems, and automate browsers, all by describing what you want in plain English. Not a single line of code written manually. Nate covers everything: setup, building, deploying, finding clients, and pricing your work. By the end you will know how to use Claude Code at a professional level and turn those skills into income.

youtube.com/watch?v=mpALXah_PBg

You just mapped 33-39 hours of the best free AI education available anywhere.

Most people will not finish this list. They will stop at Phase 02 or Phase 03 and go back to scrolling. If you finish all six phases, actually finish, laptop open, doing the work, you will be ahead of 95% of people your age when it comes to AI.

The next move is simple: pick one thing from Phase 05 and start doing it using the skills from Phase 06.

Not next week. Not when you feel ready. Now.

DM me on Instagram if you want to talk about where to go from here.
